

Customized Courses Available

STACK FAMILY CENTER FOR BIOPHARMACEUTICAL EDUCATION AND TRAINING

CBET Biopharmaceutical Short Course Schedule 2024-2025		
Course Title	Date	Cost
Biomanufacturing of Vectors for Gene Therapy	February 27-March 1	\$2,500
Mammalian Cell Culture and Single Use Technology	March 26-29	\$1,800
Biomanufacturing 101	April 1-5	\$1,500
Microbial Fermentation: Flask to Fermentor	April 22-26	\$1,800
Biopharmaceutical Purification Strategies	May 2- 3	\$1,200
Principles of Biomanufacturing Online Lectures	May 21-June 27	\$1,200
Design of Experiments for Bioreactor Optimization	June 4-7	\$1,200
Principles of Biomanufacturing Hands-on Lab	August 20-23	\$1,200
Bioreactors for Adherent Cell Growth	September 10-13	\$1,800
Advanced Biomanufacturing	October 7-11	\$2,500
Microbial Fermentation: Flask to Fermentor	October 21-25	\$1,800
Downstream Processing of Biologics	November 18-22	\$1,800
Analytics for DNA	December 5-6	\$1,200

CBET's Mission

The Stack Family Center for Biopharmaceutical Education and Training (CBET) is Albany College of Pharmacy and Health Sciences' response to the rapidly-growing biopharmaceutical field and the need for an educated workforce.

Group Discount Offerings

Groups of 2-5 students receive a 10% discount
Groups of 5 or more receive a 20% discount
ACPHS ALUMNI RECIEVE A 10% DISCOUNT ON ALL INDUSTRY COURSES
Courses are refundable within 10 days of purchase

These courses are designed for individuals with pharmacy and life science backgrounds:

- New employee training for biomanufacturing
- Existing employees needing new skills
- Personnel not directly involved with the biomanufacturing process
- Research personnel from academia and industry interested in gaining knowledge about biomanufacturing
- Contractors and suppliers of components for biomanufacturing processes and products
